

Specification Amendments

Insert the following new paragraph between lines 26 and 28 on page 3 of the specification.

--Fig. 3 is a side view of a profile roller with one pressure roller.--

Replace the paragraph between page 4, line 33 and page 5, line 7 with the following:

--This is done here by narrow pressure rollers 7 pivotable on a hinged arm 2 being supported on the profile roller at the height of these tapered areas and being pressed by means of a spring 6 engaging on the hinged arm 2 against the profile roller 1. This gives the postal items 3 this profile. This pressure can also be applied by using a profiled pressure roller 7a, with the taperings of this pressure roller 7a being located at the height of the areas with the greater diameters of profile roller 1.--
